

P25 Compact Series - Ø25mm Panel Mount Backlit Trackball, Quadrature Output

1. DESCRIPTION

The P25 Compact Series backlit trackballs are high specification devices ideal for use in the most demanding of applications where space is at a premium. The compact series incorporates the same proven technology found in the well-established P38 trackball range, providing the user with the same high specification trackballs in a smaller package. The trackballs are available in a variety of backlit ball colours including blue, green, red, white and yellow. High-grade stainless steel shafts and bearings ensure a solid and precise pointer control while the patented floating seal technology limits ingress of aqueous solutions and particulates.

The P25 Compact Series trackballs have been designed to be back of panel mounted as part of OEM keyboards and consoles in low level light environments.

2. FEATURES

- Sealing options up to IP65 (BS EN 60529)
- Output: TTL Quadrature
- Backlit ball – various colours
- Smooth operation in rugged environments
- Stainless steel shaft and bearings
- Various top plate configurations providing sealing and tracking force options
- Custom connector options
- Optional anti-vandal kit

3. APPLICATIONS

- Control systems
- Medical systems
- Navigation systems
- Compact keyboards
- Industrial consoles
- Laptops & palmtops
- OEM custom solutions available

6. OUTLINE DRAWING

Dimensional drawing specifies factory default orientation.

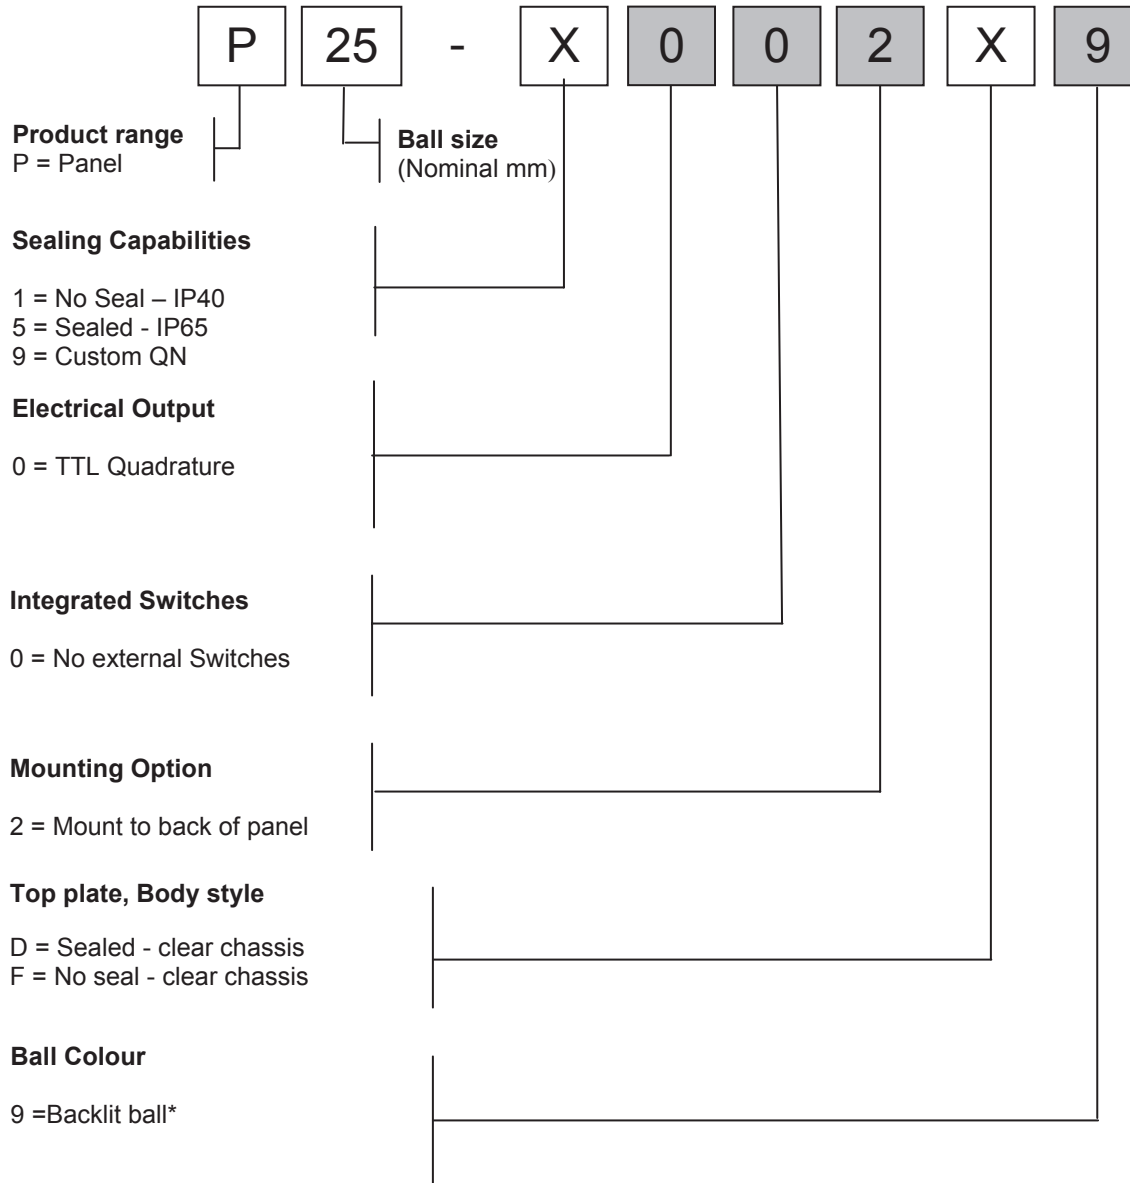

All dimensions are in mm unless otherwise stated.

Tolerances +/- 0.2mm unless otherwise stated
